

**PRESS RELEASE**

**NATURAL ALTERNATIVE TO A FACELIFT OFFERED AT VISTA BLUE SPA**

*Celebrities' Favorite Intraceuticals Oxygen Facial Now Available in Monterey Exclusively at Vista Blue Spa*

**MONTEREY, Calif. – October 13, 2009** – One of Hollywood's best kept secrets of the stars, the Intraceuticals Oxygen Facial, is now available in Monterey. Featured exclusively at the Monterey Plaza Hotel & Spa's Vista Blue Spa, this facial is considered a natural alternative to a face lift.

Touted as a favorite treatment of such stars as Madonna, Eva Longoria and Valerie Bertinelli, the Intraceuticals oxygen facial promises to provide customers with results in just one treatment.

A non invasive treatment, the Intraceuticals facial involves the use of oxygen under light pressure which delivers age defying actives to the deeper layers of the skin while cooling and calming the skin. Using a serum that contains Hyaluronic Acid and a combination of vitamins and antioxidants, the treatment reduces fine lines and wrinkles, improves facial contours and overall radiance.

"We have seen quite an interest in this treatment since we began offering it in early September," said Sue Ushakoff, Spa Director at Vista Blue Spa. "Our clients have been extremely pleased with the results."
