About the American Tin Cannery

In 1926, the American Can Company opened its sprawling sardine can production plant a short distance over the Pacific Grove city line. The factory produced a purported 26 million cans in its first season of operation, going on to dominate the can supply industry. Today the American Tin Cannery boasts great shopping, dining, and an 80-foot "History Wall" at the edge of historic Cannery Row. The American Tin Cannery is located at 125 Ocean View Boulevard, across from the sea in Pacific Grove. For more information, visit www.americantincannery.com or call (831) 372-1442.
